The Proceedings of
the Second (1999) European
OFFSHORE MECHANICS SYMPOSIUM:
PIPESLINES

June 1999

CONSTRUCTION AND OPERATIONS, ENVIRONMENTS AND DATABASE,
ENGINEERING AND DESIGN, MATERIALS

How to Use This Table of Contents

Click on a blue paper title you would like to view.

These contents were created by scanning the papers from the conference proceedings.

Cupertino, California, USA. All Rights Reserved

Indexed by Engineering Index, Compendex and Others

Edited by:

Jin S Chung, ISOPE. USA
M.A. Kamyshev, Russia
A. St. Tsvetsinsky, Russia

presented at:
The Second (1999) ISOPE European Offshore Mechanics Symposium held in Moscow, Russia. June 7-9, 1999

organized by:
International Organizing Committee

sponsored by:
International Society of Offshore and Polar Engineers (ISOPE)
All-Russia Research Institute for Construction of Pipelines & Enterprises of Fuel & Energy Sector (AO VNIIST)

ISOPE
International Society of Offshore and Polar Engineers (ISOPE)
P.O. Box 189, Cupertino, California 95015-0189 U.S.A.
CONSTRUCTION AND OPERATIONS

**Offshore Pipeline Systems on the Russian Shelf: Problems and Prospects**

M.A. Kamyshev, AO VNIIST, Moscow, Russia

1

**Deep-Water Pipeline’s Pipes Stability at Laying and Presence on the Bottom**

V.M. Ryabov., J.A. Libov, G.A. Schemilinina,
Krylov Research Shipbuilding Institute, St. Petersburg, Russia

4

**Calculation of Offshore Pipelaying of the Laybarge**

L.Q. Chien, O.B. Shadrin, Vietsovpetro J.V. Vung Tau City, Vietnam

6

**Gas Trunklines Break New Barriers**

J.F. Aubert, ETPM, France

8

**Pipeline Landfalls in Arctic Regions**

J.G. de Vries, Tideway B.V., Breda, The Netherlands

12

**Pipeline Vertical Loops**

E.J. Young, Michael Baker Jr., Inc., Anchorage, Alaska, USA

15

**Diverless Repair of Big Inch Offshore Pipelines**

A. Colombo, SNAM S.p.A., Milan, Italy

18

**Conversion of a Ship for Pipe-Laying Operations by Applying High-Speed Welding Process**

V.A. Matveyenko, N.V. Amosova, OJSCo. CDB “CORALL”, Sevastopol, Ukraine

20
Technique and Technical Means for Year-Round Construction Highly Reliable Subsea Pipelines and River Crosses in Different Conditions Including Conditions in the Arctic and Far East Seas

I. Dubin, Z. Roste, A. Mammaiev, A. Sokolov
N. Pirverdian, VNIPImornftegaz, Moscow, Russia

Overall System of Inspection and Repair, as an Optimum Way to Maintain Safe Operation of Main Oil Pipelines

K.V. Chernyaev, OJSS “Technical diagnostics Center”, AK “Transneft”, Moscow, Russia

Pipelaying Vessel for the Baidaratskaya Bay Conditions and Other Shallow Waters of the Russian Northern Seas

V.M. Potapov, OJSCo. CDB “CORALL”, Sevastopol, Ukraine

ENGINEERING AND DESIGN

Methods of Numerical Simulation of Technological Parameters of Deep-Water Pipelines Under Installation

A.I. Ermolenko, I.V. Melnyk, Institute of Hydromechanics of the NAS, Kiev, Ukraine
M.A. Kamyshev, VNIIST, Moscow, Russia

The Vortex Vibration of Pipelines Causing by the Stream and Wind Seas during the Installation on a Ground and Under Service Conditions: a Factor of Appearance of Crashes and Reducing the Service Life

S.I. Devnin, V.V. Tushkevich, L.I. Volodicheva, I.B. Vinogradova, Krylov Shipbuilding Research Institute, St.-Petersburg, Russia

Influence of Load Steps and Boundary Conditions on Torsion of Free-Span Pipeline

J.S. Chung, Colorado School of Mines, Golden, Colorado, USA

Thaw Settlement Analysis for the Colville River Crossing

J.A. Maple, J.A. Maple & Associates, Baytown, Texas, USA

Assessment of Reliability Parameters of Deep-Water Pipelines in the Stage of Design

V.M. Kovekh, IMASH RAN, Moscow, Russia;
I.N. Kurganova, S.V. Nefedov, V.M. Silkin, VNIIGAZ, Moscow, Russia

Studying the Problems of Designing and Laying the Main Gas Pipeline from Shtockmanovskoye Field

A.K. Dertsakjan, M.F. Trubatchev, Public J.-Stock Co. “Giprospetgas”, St.-Petersburg, Russia;
V.A. Avdyushkin, GosNINGI, St.-Petersburg, Russia; V.V. Minin, N.I. Petrov, Yu.A. Simonov, Krylov Shipbuilding Research Institute, St.-Petersburg, Russia

Certifying the Blue Stream According to DNV Submarine Pipeline Rules

G.I. Stirling, E. Tchernov, K. Eriksson, G.B. Castberg, DNV, Høvik, Norway

Submarine Pipeline Free Span Stability

Y.A. Goryainov, OAO “Gazprom”, Moscow, Russia; B.L. Feygin, A.S. Fyodorov, ZAO “Petergaz” Moscow, Russia; V.V. Kharionovski, VNIIGaz, Moscow, Russia

Model Test Determination of Dynamic and Kinematic Characteristics of the “Pipe-Laying Ship-Stinger-Pipeline” Complexes in the Support of Their Design

A.V. Ivanov, A.N. Kulikova, N.N. Rakhmanin, Krylov Shipbuilding Research Institute, St.-Petersburg, Russia
Ridge Underwater Pipeline Action  
A.T. Bekker, V.I. Seleverstov, K.K. Konstantinov, Far-Eastern State Technical University, Vladivostok, Russia .......................................................... 58

Estimation of Collapse Stability of Pipes Based on the Results of Full-Scale Tests, Imitating Deep-Sea Pipeline Laying  
V.N. Goritsky, A.S. Bolotov, AO VNIIST, Moscow, Russia .......................................................... 61

MATERIALS

High-Tech Pipes for Reliable Gas Transportation  

A Study on the Causes of Crack Occurrences in the P C. Pipelines of Cooling Water Systems  
B.-S. Chun, Hanyang University; C.S. Choi, The Seoul Grouting Research Center; H.-S. Choi, The Construction Research Institute of Hanyang University, Seoul, Korea ............................ 66

Assessment of Pipeline Girth Weld Defects  
R.A. Jakobsen, Stavanger University College; Y. Bai, JP Kenney A/S; I. Langen, Stavanger, Norway .................................................................................. 68

Determination of Areas of Pipelines Subjected to Internal Corrosion with the Purpose Development of Activities for Their Protection  
P.D. Thuc, V.I. Boiko, N.T. Khang, JV “Vietsovpetro”, Vung Tau City, Vietnam ............................................. 71

Internal Corrosion Protection For High Pressure Subsea Pipelines in Water Injection System at Offshore Oil Field “White Tiger”  
P.D. Thuc, M.P. Carimov, D.V. Long, V.V. Dontsov, JV “Vietsovpetro”, Vung Tau City, Vietnam ........... 74

The Increase of Corrosion Stability of Pipes for the Operation in Western Siberia  
PH.A. Medvedev, JSC “Nizhnevartovskneftegas”, Nizhnevartovsk, Russia; T. Tetyuyeva, JSC “I’Nllneft”, Samara, Russia .......................................................... 76

ENVIRONMENTS AND DATABASE

An Integrated Approach to Information Support for Production and Transport of Gas Condensates in Shelf and Coastal Regions  
A.S. Tsvetsinsky, V.S. Toujilkinke, B.V. Arkhipov, JSC Ecosystem Co., Moscow, Russia; N.N. Mikhailov, RIHMI-WCD, Obninsk, Russia; L.V. Shershneva, RIGAS, Moscow, Russia ...................... 78

Use of RADARSAT SAR Data in Ice Management and Planning of Russian Arctic Offshore Operations  
S. Sandven, O.M. Johannessen, L.H. Pettersson, Ø. Dalen, K. Kloster, Nansen Environmental and Remote Sensing Center, Solheimsvik, Norway; L.P. Bobylev, V. Yu. Alexandrov, V.V. Melentyev, Nansen International Environmental and Remote Sensing Center, St, Petersburg, Russia .......................................................... 81

Ecological Problems of Trunk Pipeline Construction on Permafrost  
I.I. Mazyr, JSC “Rosneftegazstroy”, Moscow, Russia ........................................................................ 84
